EDUCATION

Jaypee University of Engineering And Technology
Computer Science And Engineering
Bachelors of Technology- CGPA- 8.8

July 2019- June 2023
GUNA, INDIA

RNS World School
12th Percentage-73%

June 2019
JHANSI, INDIA

St.Francis Convent Inter College
10th Percentage-88%

June 2017
JHANSI, INDIA

SKILLS

- **Coursework:** Data Structures and Algorithms, Object Oriented Design, Operating System, Database Management System, Computer Networks.
- **Programming Languages:** C, C++, JavaScript
- **Development:** Html, CSS, React.Js, Node.Js, Express.Js, Rest API, Redux, Bootstrap
- **Databases:** Mysql, MongoDB, Firebase
- **Developer Tools and Technologies:** VS Code, Git, Github

PROJECTS

- **Blog Application** |Live|Code **May 2022**
Technologies Stack: MongoDB, ExpressJs, NodeJs, ReactJs
 - Led a team of 3 members and created a blog website which is a form of the online journal where users may post regular articles and start discussions about topics that are both personal and professional interests.
 - Developed 12+ features and 10+ APIs using the Restful Standards with the help of Express.js to enable data storage in MongoDB and allow users to input information.
 - Implemented **JSON web token** which is used for authentication and authorization
 - Utilized React-Redux knowledge to manage **70-80%** of the app state globally.
- **PortFolio Website** |Live|Code **February 2022**
Technologies Stack: ReactJs, Bootstrap
 - Designed a personal website by using the conceptual knowledge of React.js to showcase my experiences, including contact details, web presence, skills gained, talents, projects, and achievements.
 - Using **CSS Flexbox**, the website is intended to offer a **100% responsive** user experience for mobile devices, enabling cross-platform website access on any device.
- **Let's Chat Application**|Live|Source Code **November 2021**
Technologies Stack: ReactJs, Redux, Firebase
 - Designed a Real-time event-based chat application using **ReactJs** that lets users to interact with one another directly and on channels created by themselves.
 - Implemented **15+ features** with stunning user interfaces with **Semantic UI React**
 - Established User sign-in and sign-up by using firebase authentication
 - Integrated **Redux for state management** and Firebase for handling backend functionality as well as database

ACHIEVEMENTS

- **Codechef:** 3-star(1657)- www.codechef.com/users/vidhisaxena7
- **HackerRank:** 3-star- <https://www.hackerrank.com/vidhisaxena7>
- **GFG-** <https://auth.geeksforgeeks.org/user/vidhisaxena/profile>
- Secured 3rd Rank in a Kodeathon initiated by the University
